TECHNICAL SKILLS

Languages: C#, Java, Python, JavaScript, TypeScript
Frameworks: Angular, WordPress, DotNet
Developer Tools: Git, TFS, VS Code, Visual Studio, IntelliJ, Azure DevOps, IIS Server, SQL Server Management Studio
Libraries: React, PrimeNG, Material-UI
Others: DBMS, DSA, Operating System

EXPERIENCE

Digital Specialist Engineer | *Full Stack Dotnet-Angular Developer*   June 2022 – Present
Infosys Ltd.   *Gurugram, Haryana*

- Contributed as a full stack developer to one of the big 4 accounting firms around the globe.
- Leveraged expertise in ASP.NET Web API and ASP.NET EF Core to architect robust and scalable back-end services, ensuring optimal performance, reliability, and security.
- Orchestrated efficient database schemas and implemented SQL Server, driving seamless data storage, retrieval, and management.
- Crafted engaging front-end user interfaces with Angular, HTML5, and CSS3, delivering visually stunning and intuitive experiences that surpassed client expectations.
- Achieved substantial performance enhancements through meticulous code refactoring, database query optimization, and implementation of intelligent caching mechanisms.
- Played an active role in code reviews, offering constructive feedback to foster a culture of continuous improvement and uphold exceptional code quality.
- Collaborated seamlessly with cross-functional teams, adeptly translating business requirements into innovative technical solutions that drove project success.

EDUCATION

ITS Engineering College   Greater Noida, U.P.
B.Tech in Computer Science and Engineering (8.0 CGPA)   *May 2022*

RPM Academy   Gorakhpur, U.P.
XII-PCM (71%)   *May 2018*

PROJECTS

Video Game Database | *React.JS, HTML5, CSS3*

- Developed a responsive video game database application using React.js, optimizing UI rendering and enabling seamless user interactions. Implemented features such as advanced search, curated game lists and detailed game information (screenshots, trailers, reviews).
- Utilized the RAWG Video Game Database API to fetch and display real-time data on game titles, descriptions, platforms, genres, and ratings, ensuring up-to-date information for users.

Full Stack Quiz Application | *Angular, MS SQL Server, ASP .Net Core Web API, Entity Framework Core*

- Built a responsive quizzing application using Angular, offering a dynamic user interface and enhanced user experience.
- Utilized MS SQL Server as the database backend and ASP .NET Core Web API for seamless data management and communication. Employed Entity Framework Core for efficient data access.
- Developed a full-stack quiz application with user authentication using OIDC for security. Supports multiple quiz types, including multiple choice, true/false, and short answer quizzes. Implemented dynamic quiz generation based on user preferences and topics, with score tracking for each attempt.

CERTIFICATIONS

- Infosys Certified Microsoft SQL Server Developer
- Infosys Certified DOTNET Core Web API Developer
- Infosys Certified ASP .NET Core MVC Developer
- Infosys Global Agile Developer Certification

ACHIEVEMENTS

- Qualified HackWithInfy-2021
- Solved 200+ DSA Problems across platforms such as LeetCode, GeeksForGeeks, etc.
